# May Appeal To Nation If Congress Adjourns

## "Sabotage Propaganda" By Isolationists

WASHINGTON, July 16 (Reuter)—Isolationist supporters led by Senator Borah spread the word around Congress yesterday that there was no prospect of neutrality legislation during the present session and that Congress should therefore adjourn on August 5.

Administration Senators retorted that this was sabotage propaganda designed to prevent the question

from getting a fair hearing. Senator Barkley, who is going ahead with plans to obtain a hearing of the President's Spending and Lending Bill, intimated that there was no question of adjournment at present.

SPECIAL MESSAGE WASHINGTON. July 14. (Reuter)-President Roosevelt's special message to Congress appeals tersely and firmly for the ensetment of neutrality

legislation this session.

After referring to the foreign Relations Committee's vote postponing action on neutrality President until next Session. Roosevelt declared that "it has been abundantly clear to me for some time, that for the cause of peace and in the interest of peace-devoted peoples more help-American neutrality and security, less." it is highly advisable that Congress take certain and muchneeded action this session.

President Roosevelt forwarded with his message, a longer statement by Mr. Cordell Hull, which Britain. states that the proponents of an arms embargo are urging neutrality, but what might well result is actual unneutrality, the serious consequences of which nobody could predict.

### ITALIAN TYROL **GERMANS**

### Explanation By Rome Press

ROME, July 16 (Reuter)-The transfer, of German-speaking natives of the Italian Tyrol to Germany was mentioned for the first time in the Italian press to-day.

Signor Virginio Gayda, in the "Giornale D'Italia," says: "Discretion prevented us from speaking about it before. There is no question of expulsion, but only a quiet exodus on the base on clear, friendly agreements. The exodus s completely voluntary, and its obvious aim is to confirm for centuries the peace and solidarity existing between Germany and Italy on the Brenner."

Signor Gayda denies the report that the withdrawal of Count Dino Italian Ambassador in London, means a changed policy towards Britain. He declares that policy depends on facts and events and not on persons.

Claim On Silver Sold To U.S.

NEW YORK, July 16 (Reuter)-The Bank of Spain has lost the lawsuit to collect \$6,450,000 from the United States for silver sold to this country during the Spanish Republican regime.

The Federal judge rejected the Bank's demand for money

The Federal Reserve Bank contended that the silver was legally bought and paid for when the Republican Government controlled Spain, while the Bank of Spain argued that the money was "actually stolen" from it by representative of the Republican forces who, the Bank contended had no title to the silver.

The market opened 1/8 of a cent higher-for all deliveries as compared with Friday's closing quotations.

In response to advices received from London and New York the ruled steadier with fair buying interest for immediate and forward deliveries being displayed by consumers and dealers.

Although speculators were inclined to operate cautiously, sentiment, nevertheless, was more optimistic due to the fact first American absorption figures for June were generally regarded as very satisfactory." Furthermore, the fair increase in Motorcarproduction for the week ending 14th. instant also was an aiding factor. For the moment it would appear that uncertainties with regard to the fourth quarter quota announcement on the 25th, instant together with possible labour-unrest in U.S.A. did not affect the market.

### Closing tone was quiet.

#### NEW YORK COTTON

Selling and hedging were mainly responsible for to-day's downward movement. Sentiment, on the whole, however, remains good, with new crop prospects a sizeable influence.

Operators are somewhat cautious, awaiting the latest developments on Capitol Hill.

### CHICAGO WHEAT

After declining on favourable weather and the "lower Liverpool advices, the market steadled on new buying and covering. The imminence of the U.S. export subsidy announcement struck a favourable chord.

### BRITAIN ASKED TO GIVE MORE CREDITS TO CHINA

## Community Of Aims Of Two Countries Is Stressed

LONDON. July 15 (Reuter)-Several references to British exports credits to China were made in the course of a House of Commans debate yesterday following Mr. R. S. Hudson's motion for the second reading of the Government's Overseas Trading Guarantees Bill, which was carried without a division.

Mr. F. J. Bellenger recalled, as instancing how little control the House would have over the financing acts of the Board of Trade, that he asked Mr. Hudson on July 10 how much sterling guarantees would be given British trade in an area very vital to British trade interests-China-and Mr. Hudson had told him it was not the practice to state the amount of the department's commitments in respect of any particular country.

"Imagine my surprise this morning," continued Mr. Bellenger, "to see in Clause 2 of the Bill that it is provided that returns shall be submitted to the House of Commons in due course, showing the amounts guaranteed to different countries under the bill.

The Japanese militarists had demanded that they should be free to establish what they call their new order in China. Neither the British, French, nor any other Western Power had any intention of agreeing to Japan's demands, indicated by Japanese posters, that Britons should clear out of Asia.
